2019 - 2023

▶ Bachelor's / Computer Science, Aalto University

I'm doing my Bachelor's degree in computer science. I have done 175 / 180 credits of my degree (1 course away from graduation) with 4.58 GPA. I gained a strong foundation in computer science principles and practical skills in software development.

2022 -

▶ Master's / Web Technologies, Application and Science, Aalto University

My passion on web development let me start to do Master's courses besides my Bachelor's studies for Web technologies program. I have done 85 / 120 credits of Web technologies Master's program (Thesis + 1 course from graduation) with 4.52 GPA. This program focuses on advanced topics in web development, including web design, web applications, semantic web, and software engineering.

Projects

- Built a jamstack portfolio site.
- Created a backend server for gym exercise tracking app.
- Developed in a team a website for easing the use of AI models for game developers.
- Built a full responsive E-commerce site mockup website.
- Developed a fullstack chat application using WebSockets

HTML, CSS, React, Node, Astro,
Deno, Tailwind, PostgreSQL,
MongoDB, Flutter, Express.js,
MaterialUI

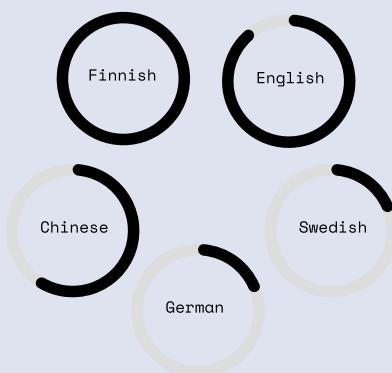

I have also previously worked with
Redux, Scala, C, Python, Docker,
React Native, Figma, React Native,
Redis, Jest,... AND ALWAYS
LEARNING MORE!

Soft

Responsibility,
Collaboration,
Communication,
Time management,
Problem solving

My strongest points are working in a team. I like to take responsibility in the teams and always want to do the tasks on time.

Languages

About Me

I am skilled and motivated developer with a strong background in computer science and passion for web development. With experience in variety of programming languages and frameworks, I am comfortable starting to work on both front-end and back-end projects. I am quick learner and enjoying staying up-to-date with the latest technologies and best practices in web development. I have successfully delivered a range of projects, including responsive websites, web applications, and RESTful APIs. I am a team player and thrive in collaborative environments, but can also work independently to deliver high-quality results.

Interest

- 💻 New technologies
- 📖 Reading web novels
- ▶ Drama shows
